

LETTER OF REFERENCE

We, "TAISEI CORPORATION-BRANCH BULGARIA" Plc, with main office and address of management at 5, Dragan Tsankov blvd, Sofia, Republic of Bulgaria, registered with Sofia City court, company file No. 12026/2004. Batch 88404, Register 1, Volume 117, Page 26, represented by Mr. Toshihiko Aoki – Project manager

Confirm that GEORH ENGINEERING Ltd as a Subcontractor has performed successfully part of the works within the SOFIA METRO EXTENSION PROJECT, in particular "*Construction of tunnel connection between Metro station 9 and the existing tunnel under boulevard "Dragan Tsankov"*".

The project was a twin tunnel metro cross-section area 81 m² in Pliocene clay and sand with partial usage of an exiting underground facility, length 200 m. The tunneling was done as per the so called "New Austrian Tunneling Method" with application of both shotcrete and monolith concrete. Organization of work was in 24 hour work cycles to assure that the work is performed in accordance with the accepted schedule.

From the work executed by GEORH ENGINEERING Ltd it can be concluded that they have got experience in performing such kind of underground structures and we recommend this company for participation in future project of the same nature.

On behalf of Taisei Corporation

Toshihiko Aoki
Project Manager
